# Kukkola rapids and fisherman's village - two times

## Get in touch with nature and culture in Torne River Valley, the fishermen's paradise!

Torne River and the Bothnian Bay are rich in fish. Kukkola fisherman's villages in both countries are a unique place to visit. You can cross the border on a fishing raft, catch your fish and eat it too. Villages are situated 15 km north of Haparanda/Tornio center.

Locals catch white fish and salmon in the rapids in summer in a traditional way, dip-netting. They also fish in the fall and winter. Fishing programmes for summer and winter are arranged by **Nordic safaris**. Ice fishing and checking the fish nets under ice is a thrilling experience.

In Sweden, the rapids are called **Kukkolaforsen** and in Finland **Kukkolankoski**. There is also a fishing museum and sauna academy in Swedish side. Finnish side offers **various activities**. There is a possibility for whitewater rafting, biking, fishing, white fish grilling experience etc. The restaurants are specialized in fish and you can also buy smoked lavaret.
